

Columbus Academy Engagement and Outreach Experience

This program is designed to provide Columbus Academy students with problem solving, creative thinking, service and leadership opportunities, engaging them in meaningful endeavors that not only cultivate their own interests but also deepen connections, partnerships and engagement within our local community.

Requests of Organization Mentor

- Act as the “point person” for the student and school
- Guide the student in navigating the organization itself as well as its purpose and function within the community
- Identify authentic organizational challenges for students to engage in, research and problem solve
- Complete a short evaluation at the completion of the experience

Student Expectations

- Participate fully by displaying a strong work ethic, and remaining curious and engaged in the operation of the organization
 - Represent Columbus Academy, its teachers, your fellow students and the organization in an appropriate manner
 - Dedicate at least 60 hours to the experience
-
