

Columbus Academy
Bus Transportation Information
2021-2022

Columbus Academy families are responsible for student transportation to and from campus. There are several public school districts in Central Ohio that provide transportation for Academy students, listed below. **Families need to monitor their local districts for school closings, when buses may not run due to inclement weather, etc.**

Each school district handles its transportation services differently. **Families should contact their school districts directly for forms, route information and applications.** The exceptions are Columbus City Schools and Olentangy Local School District, where our admissions office collects request forms and submits them on behalf of our families.

For questions, please contact Chris Cea at 614-509-2220 or ceac@columbusacademy.org.
