AP Exams are designed to measure how well students have mastered college-level material, with scores of 3 or higher on a scale of 1-5 often qualifying for college credit. In our Upper School this past spring, 119 students earned AP Scholar recognition by receiving scores of 3 or higher on three or more AP exams! In addition, 70 garnered AP Scholar with Distinction designation by achieving an average of score of at least 3.5 on all AP exams taken and scores of 3 or higher on five or more of those exams, and 18 others were AP Scholars with Honor for having an average score of at least 3.25 on all AP exams taken and scores of 3 or higher on four or more of those exams. Overall, the average test score for our AP Scholars was 4.21!
